

myQ Smart Home Ecosystem Now Available at Lowe's Nationwide

OAK BROOK, Ill., May 8, 2024 – Chamberlain Group's myQ smart home ecosystem of accessories is now available at Lowe's Home Improvement stores across the country. The ecosystem includes [myQ Smart Garage Control](#), the [myQ Smart Garage Camera](#) and the award-winning [myQ Smart Garage Video Keypad](#). All three work seamlessly together with the highly rated myQ app so you can secure, control and monitor your garage from anywhere.

"Having these products on display at a trusted retailer like Lowe's is an important step for growing awareness around our full suite of accessories," said Iain Urquhart, Executive Vice President and Chief Revenue Officer, at Chamberlain Group. "We want people to know that myQ is much more than just an app and a garage door opener, and this expansion of our partnership is a great way to get the message out."

Details on myQ's Accessory Ecosystem are:

- The [myQ Smart Garage Control](#) was designed to turn an ordinary garage door opener into a smart opener so you never have to worry if you left the garage door open ever again. You can monitor and open/close it from anywhere with the myQ app.
- The [myQ Smart Garage Camera](#) adds an extra layer of security by adding live video streaming, recorded events and 2-way communication to the myQ app, so you can see who is coming and going.
- The [myQ Smart Garage Video Keypad](#) replaces your old garage keypad so you can SEE and CONTROL who opens your home's busiest entryway. This first-to-market device includes a high-definition camera to help enhance the security of your home while empowering you to effortlessly manage access. Within the myQ app, you can create and manage personalized PIN codes, set limits on days and times when codes can be used, get notifications when the garage is accessed, and be alerted when someone or something is detected in your driveway. No more worrying about lost keys or unauthorized entries.
